## SAMPLE WEBEX SCREEN

The screenshot shows the Cisco WebEx meeting interface. At the top, it says "Cisco Webex Meetings" and "Sal Presti (Host)". Below that, there are icons for microphone, webcam, and chat. A large "SP" logo is in the center. On the right, there is a chat window with a text box and a "To:" dropdown menu. Red arrows point from text boxes to the microphone, webcam, and chat controls. The text boxes explain the status of these controls (gray for active, red for muted) and how to use the chat function.

Microphone - When the microphone icon is GRAY you can be heard by all participants. When it is RED you are muted. Members of the public will be muted when entering so make sure to unmute before speaking during the public comment period or during testimony on a specific application.

Webcam - When the camera icon is GRAY you will be seen by all participants if you are using a webcam on your computer. When it is RED only an icon or initials will be seen by all. Please make sure to check this setting once entering the session.

Chat - The chat function is controlled by the bubble icon and the text box on the right hand side. If you would like to submit a comment in writing or notify the moderator that you would like to discuss an item during any comment period click on the chat bubble until it turns blue and enter a question in the text box to the right. The To: bar above the text box controls who receives the message. Please keep that set to everyone as it is a public meeting.
