ROLE OF THE COUNTY COMMISSIONERS

County government serves as the middle layer of government between federal and state governments and local municipalities. Passaic County is governed by a seven-member Board of County Commissioners.

New Jersey has 21 counties, and no two counties are exactly the same. Counties' demographic, geographic, and economic characteristics dictate how they deliver services to their communities. The organization and structure of counties are tailored to fit their communities' needs and characteristics.

In Passaic County's commission form of government, the County Commissioners discharge both the legislative and executive responsibilities of government. The seven-member board is headed by a director who is selected to serve a one-year term at the Board's annual reorganization meeting held in January. Each County Commissioner is elected at-large for a staggered 3-year term.

The Passaic County Commissioners are responsible for an annual budget of about \$436 million serving 503,637 residents in sixteen municipalities.

ROLE OF THE COUNTY COMMISSIONERS

The Passaic County Commissioners support and are responsible for:

- Maintenance of 533 miles of County roads and 358 bridges.
- 13 County Parks with over 4,000 acres of open space.
- The Passaic County Sheriff's Office, with the responsibility of public safety, the County Jail, and Courthouse security; as well as the Passaic County Prosecutor's Office.
- Preakness Healthcare Center, a 406-bed skilled nursing facility providing sub-acute, long-term, respite and hospice care.
- Passaic County Community College, serving 15,000 students in Northern New Jersey.
- Passaic County Technical-Vocational Schools, a high school serving 3,800 students.
- Social Service Programs for the elderly, the disadvantaged, and people with disabilities.
- Preakness Valley Golf Course, a 36-hole public state-of-the-art golf facility.
- Other services provided to County residents, such as mental health and anti-addiction services, veterans' programs, heating assistance and more.

DIRECTOR'S MESSAGE

Dear Neighbor,

Although the past year has been challenging, it is with great optimism that the Passaic County Commissioners welcome in a new year. While holding close the hundreds of county residents we have lost to this lifechanging pandemic, we're hopeful for a brighter future ahead.

The 2021 Passaic County Directory contains detailed information on local, county, state and federal governments, including relevant contact information for the numerous programs and services available to you as a resident of Passaic County. In addition to this county directory, information about COVID-19, re-opening plans, and other county information can be found on our website www.passaiccountynj.org and social media pages on [Facebook](#), [Twitter](#) and [Instagram](#).

In this past year, Passaic County organized a county-run COVID-19 drive-thru testing site that served thousands of residents, before moving on to a mobile testing service which continues to operate throughout the county. In addition, we were also the first county in the country to provide at-home testing services for residents, especially keeping in mind our homebound population. At the end of last year, we've also mobilized a county-run COVID-19 vaccination site, distributed 11,000 food boxes to families in need, and supported local businesses with \$2.7M in small business grants and \$1.5M in small business rental assistance.

Our commitment to supporting our residents means in addition to providing COVID-19 resources, we will continue to invest in infrastructure, develop our County parks and historic sites, expand access to enhanced services for the county's at-risk populations, and afford access to academic opportunities at Passaic County Technical-Vocational Schools and Passaic County Community College.

For the third consecutive year in a row, the Board of County Commissioners adopted the 2021 budget with no increase to the tax levy. The budget reflects the priorities of current tax relief for its residents while providing future generations with financial stability by utilizing conservative budget practices. In addition, Passaic County's credit rating is the highest it has ever been. Your Passaic County Commissioners are proud of what has been accomplished thus far and anticipate growing our scope of services in the year ahead while remaining fiscally responsible.

Despite the struggles and challenges faced in the past year, we stand united and will continue to persevere. We will continue our commitment to maintain the well-being of all our residents and making the county the best it can be.

Sincerely,
Pasquale "Pat" Lepore
Passaic County Commissioner Director

Upon election to the Board of County Commissioners, he retired as a Sales Representative for the Entenmann's Division of George Weston Bakeries. He remains a member of the International Brotherhood of Teamsters (IBT) Union Local 802 located in Long Island City, New York. Throughout his tenure on the Board of County Commissioners, Director Lepore has been elected Director of the board three times and has also served on every standing Passaic County committee including the Passaic County Technical-Vocational Schools and the Passaic County Community College Boards of School Estimates.

Director Lepore helped spearhead fiscal initiatives and has served as budget chair for the past eleven years, resulting in ten credit upgrades to Passaic County's bond ratings from Moody's Financial Services, an independent credit rating agency which has given the county its highest bond rating in its history. This has resulted in hundreds of thousands of dollars in savings on interest payments and debt service for Passaic County taxpayers. Director Lepore's fiscal stewardship has allowed our county government to rein in costs, increase efficiencies, and more effectively share services.

Roadways are maintained curb to curb for pavement, drainage system, street cleaning, leaf collection and snow and ice control. The Road Division maintains traffic signals and signal systems, regulatory, warning and guide signs, and trees within County Right-of-Ways. The services and programs carried out by the Division are to provide for the safe passage of both motorists and pedestrians while using County roads.

All Passaic County vehicles, with the exception of the Sheriff's Office and Para-Transit vehicles, are repaired, maintained, and given the State Motor Vehicle Inspection by the Roads Division. This division also has a sign shop, which makes custom signs for Passaic County events, lettering for offices and vehicles, signs for County road resurfacing, and directional signs for roadways.

Did you know Passaic County has an online system for citizens to report potholes, roadway debris, tree issues, roadkill and general road conditions? If you experience any of these issues on a county road, please notify us at the link below.

A list of county roads can be found at passaiccountynj.org/Roads.

SCHUYLER-COLFAX HOUSE MUSEUM

2343 Paterson-Hamburg Turnpike, Wayne

The Schuyler-Colfax House was built circa 1696 by Arent Schuyler and is one of the oldest houses in all of New Jersey that still stands today. One of this home's most distinctive features is the existing jambless, an open-style fireplace with no sides. Eight generations of the Schuyler-Colfax family lived in the home. Arent's

granddaughter, Hester Schuyler, married William Colfax, who served as a Lieutenant and then Captain in General George Washington's Life Guard during the Revolutionary War. William and Hester both lived in the house after they were married. The Schuyler-Colfax family left behind written documents and artifacts. Today, the museum tells the story of the earliest local residents' material culture and how they survived, thrived, and contributed to the community and country.

VAN RIPER-HOPPER HOUSE MUSEUM

533 Berdan Avenue, Wayne

Uriah Van Riper built the Van Riper-Hopper House for his bride Maria (Polly) Berdan in 1786. Architectural research conducted in 2013 produced evidence that the Dutch Colonial house was built in three stages. An abundance of artifacts make it easy to imagine succeeding generations later

living in the home. Five lower rooms contain 18th- and early-19th-century furnishings. Located on its original site, the museum represents the agricultural society that dominated present-day Wayne for over 200 years. Today, the farmstead features an historical herb garden, archaeology laboratory, and community garden that pays homage to its agricultural roots.
