## SAMPLE WEBEX SCREEN

The screenshot shows the Cisco WebEx Meetings application window. The title bar reads "Cisco Webex Meetings" and the status bar shows "Connected". The main interface includes a menu bar (File, Edit, Share, View, Audio, Participant, Meeting, Help), a toolbar with icons for microphone, webcam, chat, and other functions, and a chat window on the right. A large "SP" watermark is visible in the center. Red arrows point from text boxes to the microphone, webcam, and chat controls. The microphone icon is red, the webcam icon is red, and the chat bubble icon is blue. The chat window shows a text box with the prompt "Type your questions here during PUBLIC COMMENT or during TESTIMONY on any specific application" and a "To:" dropdown menu set to "Everyone".

Microphone - When the microphone icon is GRAY you can be heard by all participants. When it is RED you are muted. Members of the public will be muted when entering so make sure to unmute before speaking during the public comment period or during testimony on a specific application.

Webcam - When the camera icon is GRAY you will be seen by all participants if you are using a webcam on your computer. When it is RED only an icon or initials will be seen by all. Please make sure to check this setting once entering the session.

Chat - The chat function is controlled by the bubble icon and the text box on the right hand side. If you would like to submit a comment in writing or notify the moderator that you would like to discuss an item during any comment period click on the chat bubble until it turns blue and enter a question in the text box to the right. The To: bar above the text box controls who receives the message. Please keep that set to everyone as it is a public meeting.
