Our Director of Nursing and Infection Preventionist contact-trace the exposure of residents by staff who test positive and review with our Medical Director to establish testing timeframes and transmission-based precautions. Nursing staff continue to contact the designated representatives for residents who were exposed to the staff within a 48-hour timeframe. Daniel Nasulme, Director of Nursing (973-585-1409) or Tina Hucalla, Infection Preventionist (973-585-2181) may be called to discuss specific

circumstances. Residents who test positive reside on resident unit 2-400 "C" during the fourteen day quarantine period.

COVID vaccinations for residents and staff for first, second or booster doses are scheduled as we have enough residents and/or staff who wish to be vaccinated to use a full vial of the vaccine to avoid wasting doses of the vaccine. Five residents received vaccines on January 3, 2022. Vaccination questions or messages may be left on the phone number dedicated to COVID-19 vaccination: **973-585-2100**. *We encourage all residents, staff and visitors to be vaccinated and receive a booster dose if eligible.* Unvaccinated staff are tested twice/week. Antigen testing is available for visitors who wish to be tested.

We will celebrate Kwanza with a special lunch on January 6, 2022.
