A Legacy of Caring since 1929

Update, December 22, 2022

Please Note: This Update is posted on the Passaic County website and distributed through the Constant Contact email group for families who have elected to provide their email address and is distributed to all staff. Our Social Workers and Therapeutic Recreation staff distribute the Update to residents who wish to receive it.

As we continue to test all staff due to the increase in COVID positivity, one staff from Security tested positive today. In addition, one nurse who tested off-site on December 21, 2022 and worked on resident unit 2-200 tested positive. Residents and staff who had close contact with the residents or staff who tested positive are tested in accordance with regulatory requirements. Residents who tested positive are residing on unit 2-400 "C" section until transmission-based precautions are discontinued. Since the beginning of the Outbreak on November 23, 2022, fifteen residents and forty-six staff have tested positive. We currently have two residents who are on 2-400 "C" on transmission-based precautions.

Patrick Kuiken, RN, Infection Preventionist is continuing to administer the bivalent booster to those who are eligible to receive the booster and who consent to receive it. He can be reached at 973-585-2181.
